Customize your packages to add that extra touch; making your gifts rise to the top.

Dave Alwan is a third generation farmer, cattleman, and meat processor who stepped into ABC's hit show "Shark Tank." Dave is only 1 of 2 people in Shark Tank history to be asked back a second time, then securing a deal with a Shark.

Partner and billionaire Mark Cuban said, "When you have great product like he does, business can be really simple and just about execution... let's just say it's all we serve at Thanksgiving and Christmas. So I'm a true believer."

Dave says, "Mark was the right partner for our business and he and his team have been extremely supportive along the way. We are a family business and with Mark, it still feels like family."

Choose Echo Valley Meats to send the gift experience you desire and we will handle the rest.
